MODERNIZE GOVERNANCE DOCUMENTS TO OPTIMIZE EFFECTIVENESS AND EFFICIENCY

Today's challenging medical staff environment is driving healthcare organizations toward modernized governance documents that equip the organization for agility.

Evolving trends in medical staff composition, new regulations, shifting practice patterns, and a robust merger and acquisition market have created the perfect opportunity for healthcare organizations to review their self-governance structures.

Reviewing and updating bylaws gives the medical staff the opportunity to improve physician engagement, effect meaningful change, and implement leading practices that are responsive to the current complex environment.
